## A Legacy for Life

If you would like to secure Hillside's future, helping and campaigning for animals in need, please consider a legacy to Hillside Animal Sanctuary, so that your ideals may continue to live on through our work.

Thank you  
for caring

Please request  
our Legacy Leaflet

**Hillside was founded** in 1995 and, with just 20 acres of land, we began rescuing animals. Since then our numbers have steadily grown and we are now home to around 2000 animals living on 550 acres which includes **Hillside Shire Horse Sanctuary** at West Runton. All our animals receive a good standard of basic care and our ability to save so many is attributable to the loyal help of our supporters, without whom we would not have been able to turn a vision into reality.

**In 1999 we set up an investigation team** to gain our own evidence of the appalling standards of animal welfare in the factory farming industry. Our undercover work has gone from strength to strength, resulting in a number of successful prosecutions.

We regularly work with high profile TV programmes (such as 'Tonight with Trevor McDonald') to raise awareness about the plight of animals used for food.

In 2013, Hillside exposed extreme suffering to horses being killed at the Red Lion Abattoir - UK's largest horse slaughterhouse. Our evidence was handed over to the Food Standards Agency, who promised to investigate with a view to prosecuting the offenders.

**In 2010, Hillside Dog Rescue** began taking in, and finding loving homes for dogs in need and we now have around 70 dogs in our care, waiting to be adopted.

Front cover - please see page 31 for Coco the foal and Brian the deer's story...

## Hillside Land Appeal News

A special 'thank you' to all our supporters who have donated towards our appeal to enable us to purchase a small farm which became available close to our Sanctuary at Frettenham. We are excited to let you know that, as this newsletter goes to print, we are about to exchange contracts and complete on this new land. We will bring you pictures and more news very soon. This extra land and facilities will soon be providing a permanent home, and benefitting many of the animals we have recently given sanctuary to.

## Horse Slaughterhouse Update

Despite our investigation into the Red Lion Abattoir in Nantwich last winter, when we provided filmed evidence of extreme cruelty to horses being killed there, the Food Standards Agency are **still** waiting to hear from the Crown Prosecution Service as to whether or not there will be a prosecution of the abattoir's owners and slaughtermen.

This year we have had 40 foals born to pregnant mares that were rescued on route to the slaughterhouse. Unfortunately, the abattoir is the grim fate for thousands of British horses through the selfishness and ignorance of horse owners who allow their animals to indiscriminately breed without any thought as to where the offspring may end up.

Taking animals in and helping them to recover is the easy part of rescuing them. It's the ongoing commitment of caring for, and feeding, them to ensure they are safe for the rest of their natural lives which is the hardest task. **We would like to thank all our supporters and hard working staff who make this all possible for the many animals we have in the Sanctuary.**

Still from Hillside investigation video

*Taking his last breath of fresh air - a horse looks out of the slaughterhouse window...*

*It was saving horses like Mia and her new-born foal, Misty, that prompted our investigation into the UK's largest slaughterhouse - the Red Lion Abattoir in Nantwich - where we filmed horses suffering an horrific death.*

## **Billy the Bullock**

We were recently called out by Norfolk Police at 2.30am one Sunday morning to help this distressed bullock who had been spotted struggling in a local river, and unable to get out. The Fire Brigade had come to his rescue and managed to pull him to safety onto the bank. Frightened, the bullock then sprung to his feet and careered off onto a main road and into danger. There was talk of shooting him until a Policeman suggested calling Hillside for help. Finally, after managing to corral him in a nearby industrial estate, and because his owner couldn't be traced, we loaded him onto our livestock trailer and brought him back to the safety of Hillside where he now lives peacefully with our other rescued cows.

**A picture from Hillside's 2014  
Sanctuary Scenes Calendar  
available on page 15**

Here's Susie, the Boxer, with Rosie a rescued lamb and Pixie the piglet who was found newly-born and alone by the side of a main road. Susie, who you may sponsor on page 28, always loves to mother our rescued baby animals.

## Please consider supporting Hillside

**Just a small monthly donation**  
will help provide us with regular  
funding to ensure continuous care  
for the animals in our Sanctuary,  
as well as helping us to campaign  
for animals in need.

If you would like to make a regular  
donation please fill in this form  
and *return to us*.

## Neglected Ponies Arrive at Hillside

May 2013 - We couldn't refuse to help this little mare and twelve of her pony friends who all arrived here in extremely poor condition. They have all survived and are now living contentedly in the Sanctuary.

**Here is Curly Sue**, named so because she is a Curly Horse - a rather unusual breed. As you can see she has recovered very well and still lives with the ponies she was rescued with. If you look up 'Curly Horses' on the internet, it will tell you more about them.

# Hillside Carrot Appeal

**This pile is bigger than the both of us!** Rescued Shetlands, Blue and Jasmine enjoying an extra treat of their favourite winter food...

**The carrots cost us £30 per tonne to buy**

In addition to hay, grass nuts soaked with cereal mix, seaweed and cider vinegar supplements, our horses, ponies, donkeys, cows, sheep, goats and rabbits really welcome a daily helping of juicy carrots as part of their diet.

To provide this, 29 tonnes of carrots are delivered to Hillside EVERY WEEK throughout the winter to help feed the 2000 rescued animals at the Sanctuary.

If you would like to donate some carrots for the animals, please do so opposite... **you may even donate them in lieu of a gift to make an unusual present for someone.**

# Hillside Holidays by the Sea

When we took over our Sanctuary at West Runton in 2008, we turned the residential property into holiday homes to raise valuable funds to help feed and care for our rescued animals.

If you would like to take a self-catering holiday on the North Norfolk coast, surrounded by our rescued animals, our accommodation offers a very special holiday location for our supporters. From 2013, in addition to Shire Horse House and Shire Horse Lodge, we can now offer holidays in our new Mobile Holiday Home.

If this appeals to you, please write or phone **01603 736200** for further details including dates available

and tariffs or visit [www.hillside.org.uk](http://www.hillside.org.uk)

## Hillside Old Gold Appeal

To raise funds we are always very grateful to receive any items of scrap or broken gold or silver jewellery such as the odd earring you may have in the bottom of your drawer. We can turn old, unwanted gold into funds to buy fresh hay for our rescued animals. Even unwanted costume jewellery helps to raise much-needed cash for our animals.

## Have you moved?

If you have moved please be sure to let us know your **NEW** address as well as your **OLD** address.

Also, please let us know if any other Hillside supporters at your address have also moved. Thank you.

## Our holiday guests have told us...

'A very enjoyable stay' Mrs Felicity Lewis

'Thank you for a most enjoyable week' John & Brenda Freiyer

'As usual, enjoyed our stay very much' Anne, Jim & Nigel Rathbone

'Can't wait to come back!' Mrs Hiscott

'We have been to stay here several times because we find the Sanctuary so peaceful' Karen Wesley

## Foreign Coins Welcome

If you have just come back from a foreign holiday with a pocketful of loose change or notes you don't know what to do with, these too can help us to feed and care for our rescued animals.

We would also be grateful to receive **clean sheets and towelling** to use for our animals.

**We can even raise £3 each from your old Mobile Phones - please send them to us!! Thank you.**

residents, Bess another Percheron (left) and Shire, Shadow on the right. If we could not have taken Ernie in, he would sadly have been put to sleep!

## Rescued Piggy Friends

◀ Like Pixie on page 5, recently born, Barney was found by a roadside. His friend, Petal was brought to us by Trading Standards after she was found straying in the countryside.

▼ In 2012, inseparable friends Penny, Tabatha and Lily, were just three of nine pigs who came to us as piglets having been found at only a day old stranded on a road.

Every year several newly-born piglets are brought to us which have been found on main roads where there isn't a pig farm nearby. Sows often give birth on the way to the slaughterhouse and the piglets fall from the slats on the lorries onto the highway. One slaughterhouse worker told us how sows often arrive at the abattoir having given birth on their final journey and the piglets are left floundering around on the lorry until somebody 'dispatches' them. The farming industry will try to deny that this happens.

## Deer Rescue...

Following a call for help during the summer, we rushed to the rescue of two deer on an industrial estate by Gt Yarmouth Quay. One deer had been found injured and before we arrived, we had a call that a second deer had been found on the site wedged in railings. The staff there had to use a car jack to prise open the bars to free the frightened deer. They turned out to be mother and daughter as one was suckling from the other. Mum must have got trapped when looking for her offspring. The staff on the site weren't only concerned about the main road outside but the steep drop into the water nearby. We are pleased to have been able to help these deer in their hour of need.

❖ Recovering well, mum and daughter were released to live in the Sanctuary with some of our other rescued deer. They cannot legally be returned to the wild as muntjac aren't indigenous to this country.

Fully recovered, ►► we found out that mum deer was already pregnant again when in the Autumn she safely gave birth to another daughter.

### **Black Beauty by Anna Sewell**

During the summer months, some Hillside horses spend their days grazing in a meadow neighbouring the estate where Anna Sewell, author of Black Beauty, often stayed with her uncle and close to where she is buried.

Anna Sewell, back in the mid Victorian period was, in her own way, a campaigner for animal welfare and was very much a 'local girl'. We hope that, if Anna had still been alive today, she would be pleased to know that Hillside Animal Sanctuary is located so close to her.

To celebrate the life of Anna Sewell we are pleased to offer the Wordsworth edition of her book 'Black Beauty'. A lovely gift for any young person who has not yet had the chance to read it...

June 2013 - Here's Hannah and Dancer who had been abandoned with the rest of their herd. Although the staff at Hillside put in all the hard work looking after so many rescued animals, success stories like this are ONLY made possible through the kind donations of our caring supporters. Thank you.

*See Hannah below as she came to Hillside in Feb 2013*

### **February 2013 - we were asked to help 32 horses**

and ponies that had become unwanted and been abandoned in two separate herds. These included mares that were soon due to foal. Nobody had claimed ownership of these horses, several of which were in a shocking condition. Sadly, three were so poor that they didn't survive long enough to start the journey to safety at Hillside. This rescue came in the wake of Hillside's exposure of extreme cruelty and suffering to horses at the Red Lion Abattoir, Britain's biggest horse slaughterhouse, based in Nantwich. We are just so pleased to have been able to save these surviving horses from a similar fate.

## Cows in Crisis...

You may remember that earlier in the year we were contacted by Bridgend Trading Standards who requested our help with a major rescue. They were planning to seize a large herd of ex-dairy cows and calves who were suffering extreme neglect. Around 40 were so emaciated that they had already died or had to be euthanised on welfare grounds. In the short time a rescue could be organised, a further 20 had perished or were just too weak to make the journey to safety. The cows were passed into Hillside's care but, as most were too weak to withstand the trip to Norfolk, the 90 survivors were moved to a safe haven in Wales where they have been receiving the best of care.

Emaciated, the cows, spend their first day on a straw bed, something they hadn't experienced in a long time.

Recovered after their ordeal, the cows graze contently out in the fields. Trading Standards are in the process of prosecuting the farmer for serious neglect of the cows.

We would like to thank every one of our supporters who has helped these cows to survive...

**Here's Sally, Marjorie and Philly** who are part of a herd of seven horses, including pregnant mares, who were saved from imminent slaughter earlier in the year.

With so many rescued animals at the Sanctuary we have to buy many hundreds of bales of hay every week to keep them all well fed and contented. During the exceptionally dry summer, the horses, cows, sheep and goats munched their way through much of the hay we were saving for winter.

It is not easy raising funds to pay for all the hay needed but it is very important that we do!

If you would like to help, please see our Hay Appeal on page 31. Thank you.

If you would like to donate a 'Gift of Hay' to help feed our rescued animals, in lieu of a present to your friends or family, you will receive a Greetings Card, Gift Certificate and Hillside Calendar to give to your recipient as a present.

**You may request this on the order form overleaf.**

At only three weeks old, Coco the foal was recently discovered abandoned and alone on a country lane. After an extensive search neither his mother or his owner were anywhere to be seen. Brian the deer, who was also found injured as a tiny fawn without his mum, has welcomed Coco into 'his' garden and is his constant companion. Although other horses live adjacent to Coco, he is too young to be part of their herd for the time being.
